# TD NEWS

We will be offering a Fire Alarm class that will be geared toward the NICET certification for those that are interested. There is no cost

for the class, but there will be cost associated with those that want to pursue the certification which will require taking a test from NICET, not the JATC. You will be given all the information needed to take the test

during class, but the JATC does not have anything to do with the testing. This class will help you prep for the test.

Expansion of the JATC will begin in January.
